

## RISIL PR

### Product information

Silicone sealant designed for application exposed to pressure and temperature up to 250°C

TYPICAL INFORMATION	Color	PINK
	Hardness*	10/20 Shore A
	Tensile Strength	300 Psi
	Tear Strength	2.4 Psi
	Elongation	1000 %
	Density	1.15 g/cm3
	*Result based on sample according to ISO 6123/1	
DESCRIPTION	<b>RISIL PR</b> is formulated to perform under high pressure and high temperature due to his mechanical properties combine with high temperature resistance.	
FEATURE	Outstanding mechanical resistance specially over 15 Shores A Improved temperature resistance Suited for applications requiring continuous pressure exposure
