

RISIL PW

Product information

Silicone sealant designed for application exposed to pressure and temperature up to 220°C.

| | | |
|------------------------|------------------|---------------|
| TYPICAL INFORMATION | Color | WHITE |
| | Hardness* | 15/25 Shore A |
| | Tensile Strength | 600 Psi |
| | Tear Strength | 2.8 Psi |
| | Elongation | 600 % |
| | Density | 1.18 g/cm3 |

*Result based on sample according to ISO 6123/1

| | |
|-------------|---|
| DESCRIPTION | RISIL PW is formulated to perform under high temperature with continuous pressure. |
|-------------|---|

| | |
|---------|--|
| FEATURE | Excellent anti-adhesive characteristic Very good application behavior even at low pressure Recommended for application of adhesive |
